19 September 1957

**MEMORANDUM FOR: TALENT Security Officer**

**SUBJECT : TALENT Clearance for the President's Board  
of Consultants on Foreign Intelligence Activities**

1. The Inspector General turned over the attached to me this morning. I believe no further action is required.

2. Mr. Kirkpatrick said that he had never signed a TALENT security briefing statement, and he also indicated that he believed his secretary, [redacted] should be cleared and briefed because she will have to handle papers going from him to the President's Board and perhaps for other reasons. Accordingly, it is our joint recommendation that it would be better security if she were cleared and briefed. Would you be good enough to call upon the Inspector General and his secretary and handle these matters at your convenience.
